
Opening a topic in Edit mode

In order to update a topic, you first need to open the topic in Edit mode. In Infinity, there are several ways in which you can open a topic in Edit mode.

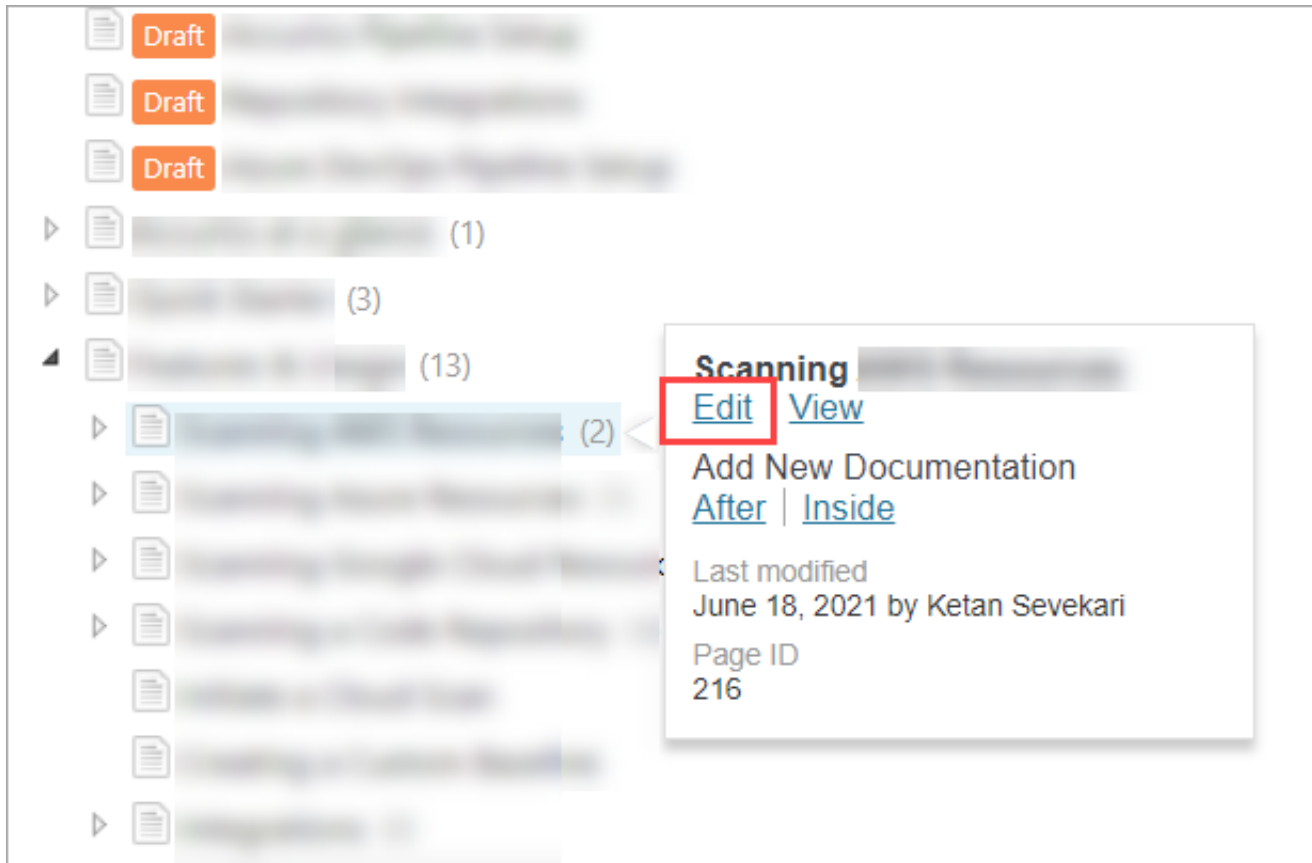

- [Option 1: Open from tree view](#)
- [Option 2: Open from documentation list](#)
- [Option 3: Open from published site](#)

Option 1: Open from tree view

1. Click **Documentation > Tree View**.

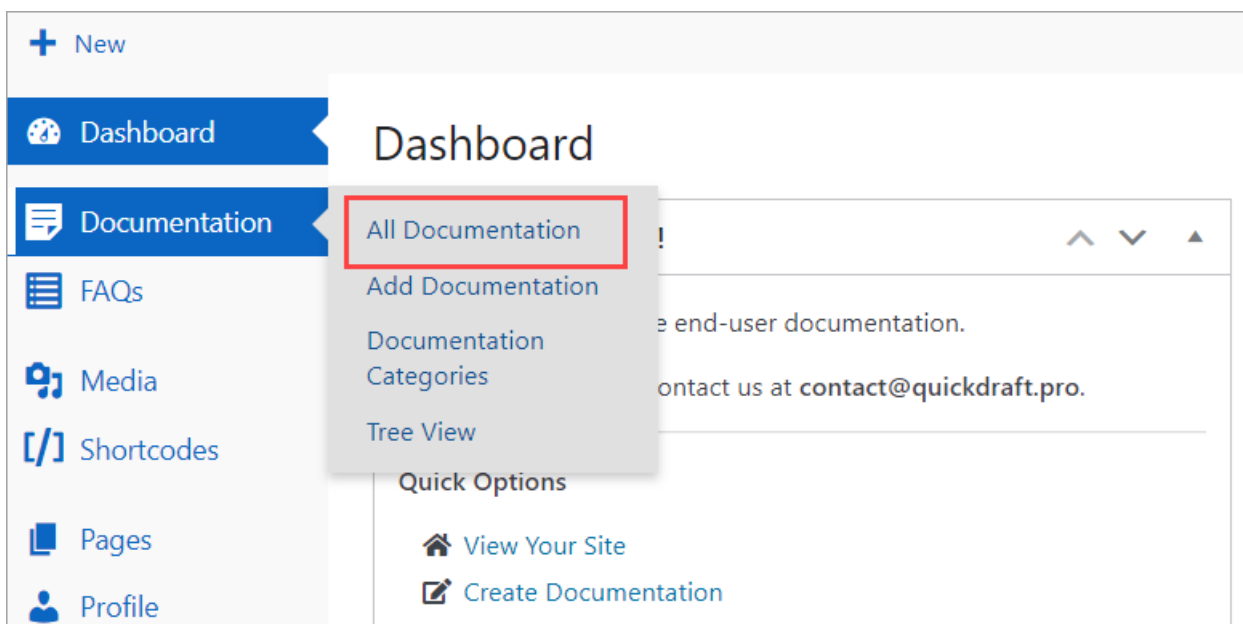

2. Expand the appropriate parent topic to find the topic you want to review. Hover the mouse pointer on the topic, and then click **Edit**. The topic opens in edit mode.

Option 2: Open from documentation list

1. Click **Documentation** > **All Documentation**, and then click the topic you want to review. The topic opens in edit mode.

Option 3: Open from published site

1. Visit the published site: <https://accurics-staging.wpcdn-b.com/>, and then click **Edit** on the topic you wish to review. The topic opens in edit mode.
